

Quality Assurance & Certifications

Quality parts start with quality thinking. At Johnson Enterprises our top priority is quality. Johnson is a ISO 9001-2008 certified company that uses state of art measuring equipment and employs highly trained individuals to carry out quality checks, maintain calibrations of tools and equipment as well as looking after internal and external audits to make sure all departments are following our policies and procedures. Our quality department uses visual displays, gives training to our machinist, welders, staff and all other personnel on a routine bases. Johnson believes that all of our employees are responsible for quality thus giving our clients value added service every time. We offer this service as a third party if required by a company looking for measuring services of parts or products. This is what we do every day for every job.

...We are certified.

Johnson Enterprises is an ISO 9001-2008 Certified Company that strives to be the best in Quality!
"Quality parts start with Quality Thinking"

Johnson Enterprises is committed to giving our customers our top priority by:

- *Producing parts that meet or exceed customer specifications*
- *While delivering parts on time*
- *At competitive prices*
- *With outstanding customer service*

Johnson's management team meets and tracks weekly to discuss on time deliveries, scrap, and deviations. Management also meets quarterly to evaluate quality performance and customer satisfaction. The company is committed to a process of continuous improvement in all areas to insure high quality and productivity levels. Great care is taken to insure proper documentation of all orders including: an agreed upon delivery date, the correct revision number of each part, the purchase order number, and appropriate drawings are available. A Shop traveller is developed for each order to follow the production process. Identification and traceability is maintained as necessary. Drawings and quality control documents for each order are retained at Johnson for approximately 5 years.

Our Certifications:

- *CWB Certification*
- *ISO Certification*
- *Controlled Goods Certification*
